g. A guards AAA unit of about 400 troops, equipped with 37 and 85-mm guns.

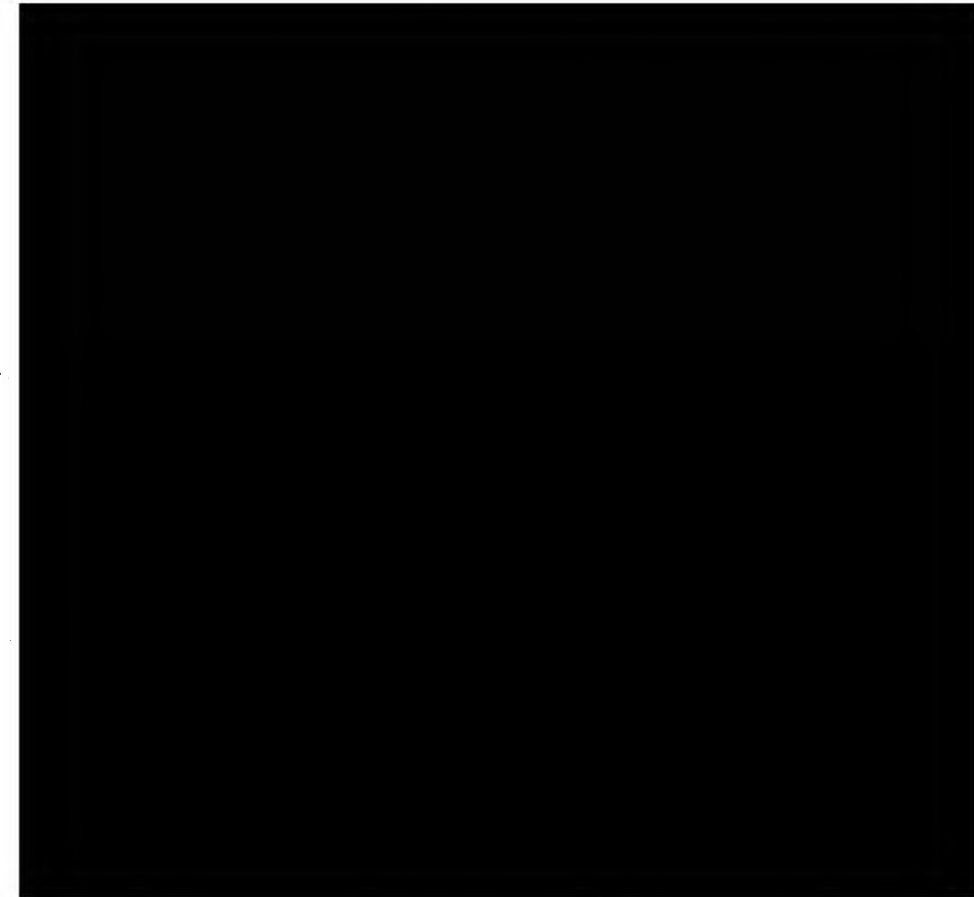

The troops stationed in these Kaserne installations were estimated at 2,500 to 2,800.

Besides the mentioned weapons and motor vehicles, 20 to 30 armored wheeled vehicles, allegedly personnel carriers, were observed stored in two garages.

Eight to ten operating field kitchens were near a fuel dump of the Fliegerhorst Kaserne.

A field exercise of 15 to 20 tanks and 32 guns was held in the area of the Brundberg (hills) on 16 November 1949.

Mid-November 1949

2. The following observations were made in HALLE in mid-November 1949:

a. Fleck Kaserne in HALLE-WO. MELTZ:

Occupied by

- (1) One mechanized regiment
- (2) An artillery unit
- (3) A tank unit.

Up to 12 T34 tanks were seen in the Kaserne area in mid-November 1949. Twenty-five T34 tanks had been observed there in mid-October 1949.

The troops in the Kaserne were estimated at 1,000.

Besides the tanks, two light reconnaissance cars and five 120-mm mortars were seen in the Kaserne area.

Work was done on tanks and motor vehicles in the motor vehicle repair shops.

An unusually large number of officers, primarily field officers, were in the Kaserne.

The following motor vehicles were identified in the Kaserne area:

a. Occupation of Halle:

(1) The report confirms the extraordinarily strong occupation of Halle by Soviet troops. A comparison with previous information shows that the Halle troops almost exclusively belong to the 21st Gds Mecz Div and returned to their previous quarters in October 1949.

(2) The report confirms the 21st Gds Mecz Div to be in the former Luftnachrichtensule up to mid-November 1949.
